Profile

Frontend Developer with 2+ years of experience building accessible, high-performance web applications using React, TypeScript, and Angular. Proven track record of increasing user engagement by 30% at Stanbic Bank and automating workflows to save 5+ hours weekly

Skills

- **Frontend:** JavaScript ES6+, Typescript, React, Angular and HTML
- **Backend & APIs**: RESTful API Integration, Firebase, SQL/MySQL
- **Tools & Methods:** Git, GitHub, GitLab, Postman, Agile/Scrum, Figma to Code
- **Data and automation**: Power Automate, Power BI (Dashboards, DAX, Power Query)

Experience

FRONTEND DEVELOPER INTERN

SPACEYATECH | AUGUST 2025 – DECEMBER 2025

- Built responsive, accessible interfaces for a Student Management System using React, TypeScript, and TailwindCSS
- Translated Figma designs into reusable, pixel-perfect components, reducing UI inconsistencies across the application
- Integrated RESTful APIs enabling real-time data exchange between frontend and backend systems
- Collaborated in Agile sprints with daily stand-ups, peer code reviews, and backend API refinement.

GRADUATE TRAINEE

STANBIC BANK KENYA | APRIL 2023 – MARCH 2025

- Redesigned a Progressive Web Application using Angular and Material Design**,** improving accessibility and increasing user engagement by 30%.
- Supported application maintenance by identifying system inefficiencies and implementing optimization updates.
- Used GitLab for version control including branching, pull requests, and code reviews.
- Designed and deployed an automated reconciliation workflow using Power Automate, streamlining data integration and reducing manual processing.
- Developed a Power BI dashboard to track suspense account allocation across the bank that helped support operational decision-making.
- Collaborated with cross-functional teams to gather system requirements and support implementation of digital solutions.

TECH CONTENT WRITER

SIFY TECHNOLOGIES | SEPTEMBER 2022 – SEPTEMBER 2023

- Featured in multiple technology podcasts, discussing topics like Women in Tech and emerging digital trends.
- Authored 10+ in-depth articles on AI, Cloud Computing, Robotics, and IoT.

ICT INTERN

KENYA PIPELINE COMPANY | FEBRUARY 2021 – MAY 2021

- Provided first-line technical support to 20+ daily users, achieving a 98% resolution rate within SLA, demonstrating exceptional customer service and efficient troubleshooting.
- Maintained and repaired company network infrastructure and information systems, gaining practical experience in system administration and ensuring minimal downtime.
- Installed, configured, and maintained 50+ computer systems, software, and IP phones, ensuring seamless communication and operational efficiency.

Education

BACHELOR OF SCIENCE IN COMPUTER SCIENCE | MAY 2017 – OCTOBER 2021

CATHOLIC UNIVERSITY OF EASTERN AFRICA

Projects

Taskflow App | React, Firebase, Context API, TailwindCSS

[Live Demo] | [GitHub]

- Built a task management dashboard with secure Firebase authentication and persistent dark mode
- Implemented real-time task CRUD operations with optimistic UI updates

Book Haven | React, TailwindCSS, Google Books API

[Live Demo] | [GitHub]

- Developed book discovery app with real-time search and dynamic results rendering
- Integrated external REST API with error handling and loading states
- Created responsive layout for seamless mobile and desktop experience

Portfolio Website | React, TailwindCSS

[Live Demo] | [GitHub]

- Responsive design for mobile, tablet, and desktop
- Dark and Light mode
- Smooth animations using Framer Motion

Certifications

- Backbase Frontend Developer – Backbase
- Cloud Intro - IBM
- Learning REST APIs - LinkedIn Learning
- Learning Cloud Computing: Core Concepts (2019) – LinkedIn Learning
